First Half, 2010

Re: I-405 Sepulveda Pass Widening Project
Owner: Los Angeles County Metropolitan Transportation Authority (LACMTA)
Contract No. C0882

Subject: Request for Notice of Interest

Kiewit Pacific Co. **(Kiewit)** is the design-builder for the referenced project and is seeking sub-bids and quotes from Disadvantaged Business Enterprises (DBE) and all other business enterprises for participation on this project.

The I-405 Sepulveda Pass Widening Project involves the engineering, procurement and construction of 10-miles of HOV lane, freeway widening, realigning existing on/off ramps, removing and replacing three bridge structures, construction of approximately 23-ea additional bridges and ramps, 18-miles of retaining and sounds walls and performing road improvements on adjacent City streets for LACMTA.

The project will be constructed in two phases – engineering and construction. Design engineering is a component of the first half of this job which began in June 2009. Construction is scheduled as design is approved on the construction segments beginning approximately 2nd Quarter 2010 and continuing for approximately 3-years.

Opportunities for subcontractors, professional services, material contractors and material and equipment suppliers will occur throughout the life of the project. Requests for Statements of Qualifications (SOQs), and Requests for Quotes (RFQs) will be ongoing as needed. Currently, anticipated bidding opportunities for construction for the first half of 2010 are described on the attached "Notice of Interest".

All responsive subcontractors must possess acceptable insurance and a valid California Contractor's License. Subcontractors performing any onsite work must be signatory to the appropriate union labor agreements. Subcontractors and material contractors are expected to provide 100% bonding. Bond premiums will be reimbursed by Kiewit. All agreements issued on behalf of this project with a value of $100,000 or greater must satisfy the LACMTA Pre-Qualification Application requirements.

LACMTA has established a Disadvantaged Business Enterprise Anticipated Level of Participation (DALP) for the I-405 Sepulveda Pass Project. Kiewit is committed to assisting the LACMTA to attain their DALP by promoting and encouraging maximum practicable opportunity for participation by DBE firms throughout this project. Likewise, Kiewit is desirous of all its lower-tier firms to seek-out opportunity in their scope of work for participation by other lower-tier DBE firms whenever possible. All DBE firms must be certified by the California Unified Certification Program (CUCP) and current certifications must be submitted with your Notice of Interest.
